

# Wake Forest Turkana Safari

Explore for fossils in the Turkana Basin region of Kenya with Dr. Ellen Miller, Department of Anthropology

SAVE THE DATE! A 10-day learning adventure, Jan 3<sup>rd</sup> - 13<sup>th</sup>, 2019

## Program Highlights:

- Enjoy African wildlife at Mpala Research Centre where elephant, rhinoceros, wild dogs, giraffe, and big cats are commonly sighted.
- Learn about important fossil discoveries and visit famous sites such as Napudet, where *Alesi*, the most complete Miocene fossil ape skull was found.
- Participate first-hand, searching for fossil monkeys and apes with Dr. Miller at her field site : Buluk, Northern Kenya
- Bring back to the lab and prepare the fossils you find for scientific study
- Immerse yourself in study of the roots of humanity
- Packages start at \$7,500 per person (excl. airfare)
