

Master of Science in Business Analytics

Become a Big Data Demon Deacon!

The Wake Forest University MS in Business Analytics program is an accelerated 10-month Masters experience offering students a unique and immersive curricular experience deploying the study of Big Data to solve the challenges of business. The Wake Forest MSBA focuses on developing strong analytical skills and a robust business acumen, empowering our students to become exceptional Business Analytics professionals in a range of industries. Learn more at our information session!

Jeff Camm, Associate Dean and Neel Brooks, Assistant Director of the MSBA program will host an information session in Farrell Hall to share the story of the MSBA experience with Wake Forest students.

Wednesday, January 25th, 2017

Information Session

Farrell Hall
