

# Office of Research and Sponsored Programs

2020 Summary Report

# Funding Highlights

In FY20, Wake Forest University researchers received grants totaling more than \$14 million from external sponsors, not including fellowship support for scholarship in the social sciences and humanities. In addition, faculty and staff submitted 135 proposals, requesting nearly \$47 million.

Awards from federal sources accounted for 86% of all funding. This year, total awards received included \$3.4 million of CARES Act funding from the US Department of Education. The National Institutes of Health continued to be WFU's top research sponsor, providing 40% of the total funding.

During FY20, the following faculty and staff received their first grants at WFU:

Grey Ballard, Computer Science  
Saami Yazdani, Engineering  
Kyana Young, Engineering  
Jason Fanning, Health & Exercise Science  
Tanisha Ramachandra, Religion  
Stan Meiburg, Graduate School,  
Sustainability Program

*The statistics that follow summarize Reynolda campus sponsored research activity for FY20. These graphs include funding processed through the Office of Research and Sponsored Programs and not gifts or fellowship awards made to individual faculty. Awards represent authorization to spend as opposed to research expenditures.*
