General Information

History of Wake Forest University

Wake Forest Institute was founded in 1834 by the Baptist State Convention of North Carolina. The school opened its doors on February 3 with Samuel Wait as principal. Classes were first held in a farmhouse on the Calvin Jones plantation in Wake County, North Carolina, near which the village of Wake Forest later developed.

Rechartered in 1838 as Wake Forest College, Wake Forest is one of the oldest institutions of higher learning in the state. The School of Law was established in 1894, followed by a two-year medical school in 1902. Wake Forest was exclusively a college for men until World War II, when women were admitted for the first time.

In 1941, the medical school moved to Winston-Salem to become affiliated with North Carolina Baptist Hospital and was renamed the Bowman Gray School of Medicine. In 1946, the trustees of Wake Forest and the Baptist State Convention of North Carolina accepted a proposal by the Z. Smith Reynolds Foundation to relocate the College to Winston-Salem. The late Charles and Mary Reynolds Babcock donated much of the R.J. Reynolds family estate as the site for the campus and building funds were received from many sources. From 1952 to 1956, the first fourteen buildings were constructed in Georgian style on the new campus. The move to Winston-Salem took place in the summer of 1956; the original, or "old" campus, is now home to Southeastern Baptist Theological Seminary.

Following the move, Wake Forest grew considerably in enrollment, programs, and stature and became a University in 1967. The School of Business Administration, first established in 1948, was named the Charles H. Babcock School of Business Administration in 1969 and admitted its first graduate students in 1971. In 1972, the school enrolled only graduate students and the name was changed to the Babcock Graduate School of Management; departments of business and accountancy and economics were established in the College. In 1980, the Department of Business and Accountancy was reconstituted as the School of Business and Accountancy; the name was changed to the Wayne Calloway School of Business and Accountancy in 1995.

The Division of Graduate Studies, established in 1961, is now organized as the Graduate School and encompasses advanced work in the arts and sciences on both the Reynolda and Bowman Gray campuses. In 1997, the medical school was renamed the Wake Forest University School of Medicine; its campus is now known as the Bowman Gray Campus. The Divinity School was established in 1999.

Wake Forest honors its Baptist Heritage in word and deed. The University will fulfill the opportunities for service arising out of that heritage. Governance is now by an independent Board of Trustees; there are advisory boards of visitors for the College and each professional school.

Statement of Purpose

(As approved by the Board of Trustees – March 22, 2002)

Wake Forest is a University dedicated to the pursuit of excellence in the liberal arts and in graduate and professional education. Its distinctiveness in its pursuit of its mission derives from its private, co-educational, and residential character; its size and location; and its Baptist heritage. Each of these factors constitutes a significant aspect of the unique character of the institution.

The University is now comprised of seven constituent parts: two undergraduate institutions, Wake Forest College and the Wayne Calloway School of Business and Accountancy; the Graduate School; and four professional schools: the School of Law, the Wake Forest University School of Medicine, the Babcock Graduate School of Management and the Divinity School. It seeks to honor the ideals of liberal learning, which entail commitment to transmission of cultural heritages; teaching the modes of learning in the basic disciplines of human knowledge; developing critical appreciation of moral, aesthetic and religious values; advancing the frontiers of knowledge through in-depth study and research; and applying and using knowledge in the service of humanity.

Wake Forest has been dedicated to the liberal arts for over a century and a half; this means education in the fundamental fields of human knowledge and achievement, as distinguished from education that is technical or narrowly vocational. It seeks to encourage habits of mind that ask "why," that evaluate evidence, that are open to new ideas, that attempt to understand and appreciate the perspectives of others, that accept complexity and grapple with it, that admit error, and that pursue truth. Wake Forest College has by far the largest student body in the University, and its function is central to the University's larger life. The College and the Graduate School are most singularly focused on learning for its own sake; they, therefore, serve as exemplars of specific academic values in the life of the University.

Beginning as early as 1894, Wake Forest accepted an obligation to provide professional training in a number of fields, as a complement to its primary mission of liberal arts education. This responsibility is fulfilled in the conviction that the humane values embodied in the liberal arts are also centrally relevant to the professions. Professional education at Wake

Forest is characterized by a commitment to ethical and other professional ideals that transcend technical skills. Like the Graduate School, the professional schools are dedicated to the advancement of learning in their fields. In addition, they are specifically committed to the application of knowledge to solving concrete problems of human beings. They are strengthened by values and goals which they share with the College and Graduate School, and the professional schools enhance the work of these schools and the University as a whole by serving as models of service to humanity.

Wake Forest was founded by private initiative, and ultimate decision-making authority lies in a privately appointed Board of Trustees rather than in a public body. Funded to a large extent from private sources of support, Wake Forest is determined to chart its own course in the pursuit of its goals. As a co-educational institution, it seeks to "educate together" persons of both sexes and from a wide range of backgrounds --- racial, ethnic, religious, geographical, socioeconomic, and cultural. Its residential features are conducive to learning and the pursuit of a wide range of co-curricular activities. It has made a conscious choice to remain small in overall size; it takes pride in being able to function as a community rather than a conglomerate. Its location in the Piedmont area of North Carolina engenders an ethos that is distinctively Southern, and more specifically North Carolinian. As it seeks further to broaden its constituency and to receive national recognition, it is also finding ways to maintain the ethos associated with its regional roots.

Wake Forest is proud of its Baptist and Christian heritage. For more than a century and a half, it has provided the University an indispensable basis for its mission and purpose, enabling Wake Forest to educate thousands of ministers and laypeople for enlightened leadership in their churches and communities. Far from being exclusive and parochial, this religious tradition gives the University roots that ensure its lasting identity and branches that provide a supportive environment for a wide variety of faiths. The Baptist insistence on both separation of church and state and local autonomy has helped to protect the University from interference and domination by outside interests, whether these be commercial, governmental, or ecclesiastical. The Baptist stress upon an uncoerced conscience in matters of religious belief has been translated into a concern for academic freedom. The Baptist emphasis upon revealed truth enables a strong religious critique of human reason, even as the claims of revelation are put under the scrutiny of reason. The character of intellectual life at Wake Forest encourages open and frank dialogue and provides assurance that the University will be ecumenical and not provincial in scope, and that it must encompass perspectives other than the Christian. Wake Forest thus seeks to maintain and invigorate what is noblest in its religious heritage.

Statement of Principle on Diversity

Wake Forest University is a community of men and women that seeks the enlightenment and freedom which come through diligent study and learning. Its higher goal, however, is to give life to the University motto "Pro Humanitate," as members translate a passion for knowledge into compassionate service.

The community shares a tradition that embraces freedom and integrity and acknowledges the worth of the individual. The heritage, established by the school's founders and nurtured by succeeding generations, promotes a democratic spirit arising from open-mindedness and discourse.

Wake Forest fosters compassion and caring for others. Its collective strength and character are derived from the values and distinctive experiences of each individual; therefore, it affirms the richness of human intellect and culture and its contribution to knowledge, faith, reason, and dialogue. Furthermore, it strives toward a society in which good will, respect, and equality prevail. To that end, Wake Forest University rejects hatred and bigotry in any form and promotes justice, honor, and mutual trust.

Chronological History of Wake Forest University

- 1834 Founded in Wake County, N.C., as Wake Forest Manual Labor Institute in cooperation with the N.C. Baptist Convention
- 1838 Named Wake Forest College
- 1894 School of Law established
- 1902 School of Medicine founded
- 1921 First Summer Session
- 1936 Approval of the School of Law by the American Bar Association
- 1941 Relocation of the School of Medicine to Winston-Salem and eventual change of name to Bowman Gray School of Medicine and association with the North Carolina Baptist Hospital
- 1942 Women admitted as undergraduate students
- 1948 School of Business Administration established

- 1956 Move to Winston-Salem in response to an endowment from the Z. Smith Reynolds Foundation
- 1961 Division of Graduate Studies established
- 1967 Became Wake Forest University
- 1969 School of Business Administration renamed Charles H. Babcock School of Business Administration
- 1972 Charles H. Babcock Graduate School of Management enrolled first graduate students. Department of Business and Accountancy and a Department of Economics established in the College.
- 1980 Department of Business and Accountancy renamed School of Business and Accountancy
- 1986 Redefined the relationship with the N.C. Baptist State Convention
- 1995 School of Business and Accountancy changed name to Wayne Calloway School of Business and Accountancy
- 1997 Change of name to Wake Forest University School of Medicine
- 1999 Opening of the Wake Forest University Divinity School
- 2002 Incorporation of Wake Forest University Health Sciences

Accreditation

Wake Forest University is a Member of or Accredited by:

- AACSB International – The Association to Advance Collegiate Schools of Business
- American Chemical Society
- American Council on Education
- Accreditation Review Commission on Education for the Physician Assistant of the American Medical Association
- Association of American Colleges
- Association of American Law Schools
- Association of American Medical Colleges
- Association of Theological Schools – Associate Membership
- Board of Law Examiners
- Commission on Colleges of the Southern Association of Colleges and Schools
- Council for Accreditation of Counseling and Related Educational Programs
- Council of Graduate Schools
- Council of Southern Graduate Schools
- Council of the North Carolina State Bar
- Council of the Section of Legal Education and Admissions to the Bar of the American Bar Association
- European Foundation for Management Development
- Liaison Committee on Medical Education of the American Medical Association and the Association of American Medical Colleges
- National Accrediting Agency for Clinical Laboratory Sciences
- National Association of Independent Colleges and Universities
- National Council for the Accreditation of Teacher Education
- North Carolina Association of Colleges and Universities
- North Carolina Independent Colleges and Universities
- North Carolina Conference of Graduate Schools
- North Carolina Department of Public Instruction
- Oak Ridge Associated Universities
- Section on Medical Schools of the American Medical Association
- Southern Universities Conference

Information Systems (Reynolda Campus)

Information Systems supports University instruction, research, and administrative needs through computing and telecommunications services. The campus computer network offers wired and wireless high-speed connectivity from all campus buildings.

All students on the Reynolda Campus are given a network login ID; the login is maintained as long as the student is enrolled. This account provides students with access to networked computer resources such as electronic mail, client-server software packages, various courseware applications, and administrative services. Upon matriculation, and again at the beginning of the junior year, undergraduate students receive a new ThinkPad computer as part of their tuition. The current ThinkPad model specifications can be found on the Information Systems Web site, www.wfu.edu/is. Standard software on the ThinkPad includes Windows XP Professional Edition, Microsoft Office, Adobe Acrobat and digital media tools, and Internet applications like Mozilla and Adobe Dreamweaver. The ThinkPad also has a variety of research, analytical, and development tools, as well as the latest version of Symantec AntiVirus. Maintenance and support for the ThinkPad computers is provided on campus through a service center located in the Information Systems Building. Loaner computers are available for students as needed. In addition to the ThinkPad, all first-year students receive an HP color inkjet printer/scanner/copier.

Information Systems maintains an extensive array of online information systems that support University admissions, student registration, grade processing, payroll administration, accounting services, and many other administrative and academic applications. In addition, the Wake Forest Information Network (WIN) provides the University community with features like faculty, staff, and student directories; an alumni directory and career networking service; online class registration; and vehicle registration.

Students also have access to computing resources outside the University. The University is a member of the Inter-University Consortium for Political and Social Research (ICPSR), located at the University of Michigan. Membership in ICPSR provides faculty and students with access to a large library of data files, including public opinion surveys, cross-cultural data, financial data, and complete census data. The University is also a member of EDUCAUSE, a national consortium of colleges and universities concerned with computing issues.

The University has an extensive collection of computing facilities that serve both academic and business needs. Wake Forest's network infrastructure includes a gigabit Ethernet backbone, 100 megabit switched connectivity to the desktop, and pervasive, 802.11a/g wireless connectivity in all campus buildings. LINUX and Windows-based servers provide for business computing needs and services. A mix of LINUX, AIX systems and Windows-based systems provide for messaging, systems management, Internet, intranet, courseware, various research needs, and file and print services. A LINUX supercomputing cluster provides supercomputing services for math, computer science, physics, and other scientific research applications. These systems are available to students, faculty, and staff 24 hours a day through the Wake Forest University network or ISP connectivity. All connections are protected by VPN and firewalls.

Programming languages available on the Academic Computing (AC) system include C, C++, Java, Perl, Tcl/TK, Fortran77. SPSS a statistical package can be used for data analysis, forecasting, and financial modeling. Maple, a symbolic algebra package, is also available. Using the ThinkPads, students have access to a large variety of instructional, classroom, and research resources through the campus network including the online catalog, databases, and electronic journals provided by the Z. Smith Reynolds Library. Many departments on campus have their own computing resources in addition to those available through the Information Systems Department.

In addition to the tools provided by the Wake Forest standard notebook load, Math students have access to a full suite of tools for class, project and research that aid them in completing their degree. These tools include MatLab, Maple, SPlus, CoCoa, and a full suite of GNU compiler tools. These tools are located on a Red Hat server made available to only the Math Department and those working in conjunction with them.

Through the use of operating system virtualization, the Computer Science Department is able to offer a unique set of software tools to allow students to experience the nuances of various operating systems. Depending on the class taken, students may find themselves working on one of the many varieties of UNIX that are available in today's market place. These may include Ubuntu, Debian and Red Hat Linux as well as Sun Microsystem's Solaris and OpenSolaris. The Wake Forest Microsoft Windows standard load comes on the students notebooks and various classes are also taught on the Windows platform as well as MAC OS X.

In addition, students have access to the Wake Forest Deac Cluster, a high performance cluster with 220 nodes available to both students and faculty. Dedicated servers are also provided to offer MatLab, Maple, and GNU compiler suite as well as the Sun compiler suite. The Wake Forest DEAC cluster currently offers the computational research community a wide variety of commercial scientific software as well as open source middleware necessary to effectively and efficiently utilize the high performance computing cluster. In addition, most commercial scientific software that is currently available to the campus as a whole is also available on the cluster. Currently, researchers on the cluster have access to: any Red Hat Enterprise Linux 4 provided software; Fortran 77 and Fortran 90 compilers from Intel, Portland Group, and Absoft; OpenMP API support from Intel; MPI support for Ethernet (MPICH2) from Argonne National Lab and Infiniband (MVAPICH2) from Ohio State University; and commercial software packages such as Matlab R2008a, Maple 12, Mathematica 6, and ITT IDL.

Information Systems also provides telephone and cable television services to the students, faculty, and staff of Wake Forest. Cable television, while providing a recreational outlet, plays an important role by providing access to campus information and educational offerings. Cable channel 2 is the Wake Forest Information Systems channel, which provides updated information on campus technology, Help Desk hours, and the status of various technology services. Cable channel 6 is student-run WAKE-TV,

which features various student programming. Channels 20 and 22 carry SCOLA and SCOLA2, nonprofit educational services that feature television programming from more than 50 different countries in their original languages. Information Systems also offers select HDTV channels to students in residence halls.

Information Systems provides assistance online at <http://help.wfu.edu>, by telephone at xHELP (x4357) and supports walk-in customers in room 256 of the Information Systems Building from 8 a.m. until 7 p.m. Monday through Thursday; 8 a.m. until 5 p.m. on Friday; and 3 p.m. until 7 p.m. on Sunday. A voice mail retrieval system is activated on weekends and during holiday breaks to respond to emergency calls. On-site computing support in the residence halls is available from Resident Technology Advisors (xRTAS). In addition, students have 24-hour access to online support resources at <http://help.wfu.edu>.

More than 100 students are involved in Information Systems student technology programs. Students work in a number of settings that include providing direct support for students, faculty, and staff. In addition, students participate in unique leadership and community outreach programs including a technology-focused theme house.

Libraries

The libraries of Wake Forest University support instruction and research at the undergraduate level and in the disciplines awarding graduate degrees. The libraries of the University hold membership in the American Library Association and in the Association of Southeastern Research Libraries. They rank among the top libraries in the Southeast in expenditures per student.

The Wake Forest University libraries include the Z. Smith Reynolds Library, which is located on the Reynolda Campus and supports the undergraduate College, the Calloway School of Business and Accountancy, the Graduate School of Arts and Sciences, and the Divinity School. The Professional Center Library, housed in the Worrell Professional Center on the Reynolda Campus, serves the Law School and the Babcock Graduate School of Management. The Coy C. Carpenter Library serves the Wake Forest School of Medicine and is located on the Bowman Gray Campus. The three library collections total over 2.1 million volumes. Subscriptions to more than 35,000 periodicals and serials, largely of scholarly content, are maintained at the libraries. The Z. Smith Reynolds Library holds over 1.8 million volumes in the general collection, over 1 million reels of microfilm and pieces of microtext, and nearly 25,000 media items. As a congressionally designated selective federal depository and depository of North Carolina government information, the ZSR Library holds nearly 170,000 government documents. The Professional Center Library holds over 180,000 volumes and the Coy C. Carpenter Library holds over 150,000 volumes. The three libraries share an online catalog, which also provides access to electronic resources, journals and databases, all accessible via the campus network and on the Internet.

Through interlibrary loan service, students, faculty and staff may obtain materials from other libraries at no charge. In addition, Wake Forest University faculty members have borrowing privileges and on-site access to the collections of some of the most important research libraries in North America. The Z. Smith Reynolds Library provides access to a number of digital current awareness tools to help faculty stay up-to-date in their fields of interest. Photocopy services and campus delivery of books, media and ILL materials are provided to faculty as well. Faculty may place course materials and readings on Reserve, with electronic reserve options available. Faculty participate in collection development by recommending purchases through Library Liaisons, Faculty Library Representatives, and Academic Department Chairs. Faculty members, along with students, serve on the Library Planning Committee. Library services specifically tailored for faculty are outlined at <http://zsr.wfu.edu/faculty.html>

The Z. Smith Reynolds Library provides comprehensive reference and research services including assistance with directed and independent research and online searching, discipline related library instruction, general library orientation, tours, and a one-credit elective course entitled "Accessing Information in the 21st Century." Reference tools are available in electronic and print formats.

Special collections in the Z. Smith Reynolds Library include the Rare Books and Manuscripts Collection and the Ethel Taylor Crittenden Baptist Historical Collection. The Rare Books and Manuscripts Collection, greatly enhanced by the donation of rare and fine books of the late Charles H. Babcock, emphasizes American and British authors of the nineteenth and twentieth centuries. Among the collections are works of Mark Twain, Gertrude Stein, William Butler Yeats, T.S. Eliot and the publications of the Hogarth Press. The extensive Anglo-Irish literature collection includes the Dolmen Press Archive. The archive of alumnus Harold Hayes, editor of *Esquire* magazine in the 1960's - 70's, and the Maya Angelou works for theater, television and screen are maintained in the special collections. The Ethel Taylor Crittenden Baptist Historical Collection contains significant books, periodicals, manuscripts and church records relating to North Carolina Baptists, as well as the personal papers of prominent ministers, educators, and government officials with ties to Wake Forest College/University. The Wake Forest College/University Archive is maintained in the library as well.

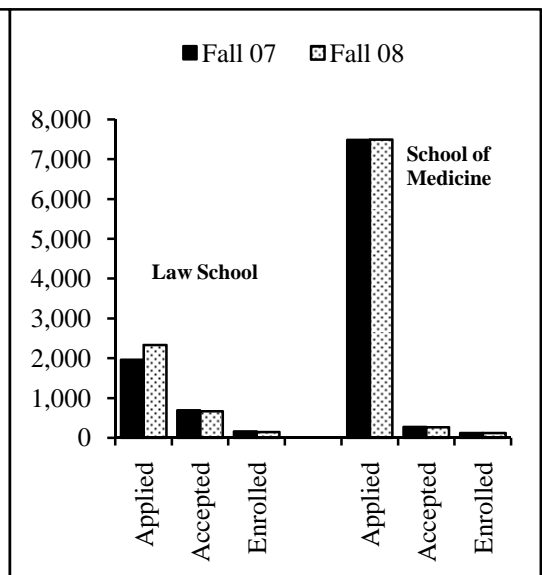

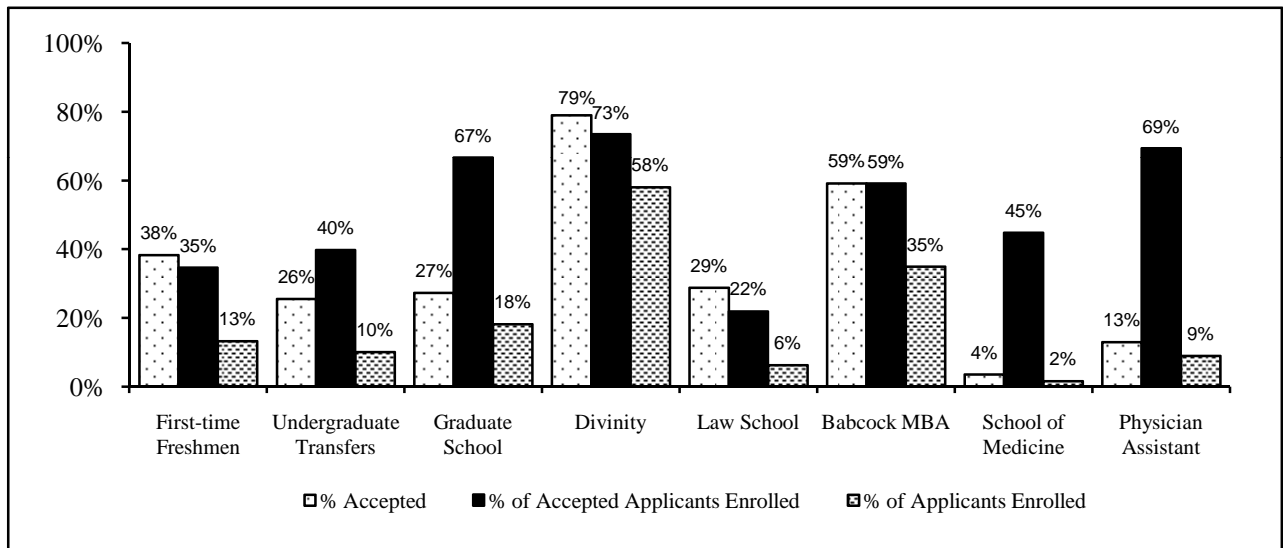

The entire library is equipped for wireless internet access. Facilities in the Z. Smith Reynolds Library include an Information Technology Center (ITC) which offers a computer lab, technology training classes and collaborative space for student group work. The ITC also offers a multimedia lab with stations for digital imaging, scanning, and multimedia projects. Small group study rooms may be reserved at the circulation desk. In addition, 90 locking study carrels located throughout the Reynolds stacks may be reserved by graduate students and faculty. The library is open continuously during the academic year 24 hours a day from Sunday through Thursday. When the library is not on its 24 hour schedule, two 24 hour study rooms are available located near the entrance to the library and may be accessed by keycard when the library is closed. A full description of the Z. Smith Reynolds Library resources and services is found at <http://zsr.wfu.edu/>.

*In the years 2002-03 through 2006-07, the Allied Health Category includes the Nurse Anesthesia and Physician Assistant programs in which students earn graduate degrees. The Medical Technology program is counted in "Undergraduate" since no graduate degree is awarded. Beginning in 2007-08, Medical Technology and Nurse Anesthesia are no longer counted as University programs and "Allied Health" refers exclusively to Physician Assistant.

() = Reynolda Campus undergraduate students (excludes Study Abroad and Allied Health students)
