## 2017 College Senior Survey

### Institutional Profile and Longitudinal Profile Reports

---

---

# Wake Forest University

---

---

Comparison group 1: Private Universities - Very High Selectivity  
Comparison group 2: Private Universities

## How to Read the Institutional Profile Report

The Institutional Profile provides valuable information on your students' academic and campus life experiences--including post-college plans immediately following graduation--for students at your institution and two comparison groups. This report provides information that can be used for student assessment activities, accreditation and self-study reports, campus planning, and policy analysis. Separate profile reports are generated for graduating seniors and all respondents. Graduating seniors are defined as those respondents who indicated that they will have earned a bachelor's degree as of June 2017.

Indicate the importance to you personally of each of the following:										
<b>Becoming a community leader</b>										
Essential	8.5%	14.4%	13.0%	11.2%	16.2%	14.3%	6.9%	13.0%	12.2%	Social Agency
Very important	26.2%	32.5%	30.1%	30.9%	33.0%	31.4%	23.5%	32.1%	29.3%	
Somewhat important	38.1%	37.3%	37.9%	32.9%	36.2%	36.4%	41.2%	38.1%	38.8%	
Not important	27.2%	15.9%	18.9%	25.0%	14.6%	17.9%	28.5%	16.9%	19.6%	
Total (n)	412	5,149	9,740	152	2,185	3,788	260	2,964	5,952	
Mean	2.16	2.45	2.37	2.28	2.51	2.42	2.09	2.41	2.34	
Standard Deviation	0.92	0.92	0.93	0.97	0.93	0.94	0.89	0.92	0.93	
Significance	-	***	***	-	**		-	***	***	
Effect Size	-	-0.32	-0.23	-	-0.25	-0.15	-	-0.35	-0.27	

**Comp 1** – The first comparison group is based on your institution's type and control.

**Comp 2** – The second comparison group is based on a similar grouping of institution type and control.

**CIRP Construct** – Items that are included in the measurement of a construct are indicated here.

**Mean** – The arithmetic mean is computed for each survey item based on the response options. Response options are given numeric values and are listed in descending order (i.e., 4=Essential, 3=Very Important, 2=Somewhat Important, 1=Not Important).

**Statistical Significance** – Uses t-test to examine the difference between the mean score for your institution and the comparison group. Items with mean differences that are larger than would be expected by chance are noted with one, two, or three stars, which correspond to the three standard levels of significance (\*p< .05, \*\*p< .01, and \*\*\*p< .001). Statistical significance measures the extent to which a difference is occurring by chance, not the extent to which a difference is important. Large sample sizes (like those in the comparison groups) tend to generate statistical significance even though the magnitude of the difference may be small and not practically significant. In order to provide additional context to statistical significance, effect sizes are provided.

**Effect Size** – Determines the practical significance of the mean difference between your institution and the comparison group. It is calculated by dividing the mean difference by the standard deviation of the comparison group. Generally, an effect size of .2 is considered small, .5 medium, and .8 large. A positive sign indicates that your institution's mean is greater than the mean of the comparison group; a negative sign indicates your mean is smaller than the mean of the comparison group. Note that a negative effect size is sometimes preferred (e.g., a negative effect size on "Since entering college, how often have you felt unsafe on this campus" suggests fewer students at your institution reported this over the years).

**Standard Deviation** – Measures the variability around the mean. A small standard deviation indicates that the responses to the item tend to be very close to the mean, whereas a large standard deviation indicates that the responses are spread over a larger range of response options.
