- Choose the building on the left hand side under Site and left click to select it. If you do not see the building you are looking for double check you have selected the appropriate site.
- Once building is highlighted (see screenshot to right). The room numbers are now filtered to that building on the right hand side.
- Room numbers have a format of XXX-YYY ZZZZZZZZZZZZ where
 - XXX is the building number
 - YYY is the room number (100 would be first floor 200 is second floor etc)
 - ZZZ is the room description

- You may choose the room by clicking the blue triangle next to the appropriate room number. Room numbers may be filtered further by entering the number in the top of the “Name” column and hitting **Enter**

- If the WORK CATEGORY/Team field is required choose the appropriate team from the drop down list. (field only shows if required)
- Enter the request details into the **Work requested:*** field. Enter all information needed to complete the requested work.

✓ REQUEST DETAIL

Please be as detailed as possible.

Work requested: *

Please replace the light that is out in the Benson lobby 101. Thank you!

Rich text editor toolbar: B, I, U, ABC, [Globe icon], [Globe icon], [Image icon], [Grid icon]

- If a Budget code is required, please enter all known or required Workday FDM information into the “Budget Code” field.

▼ BUDGET CODE #

Please enter all Workday FDM values that are known only. Include (cost center, fund, activity code, worktags)

Budget Code:

- *Routine maintenance does not require a budget code, all Events/Special requests require budget codes.
- Include all known workday values:
 - Cost Center
 - Fund
 - Activity code
 - Worktags etc.

- If you have supporting documentation or photos they may be uploaded in the UPLOAD DOCUMENTS/IMAGE section

 **UPLOAD DOCUMENT/IMAGE**
