

As a new faculty member (or relatively new) to Wake Forest, we understand that you probably have general and cursory knowledge of the University and what it has to offer. In August 2013, the College started the “[New Faculty in the Forest](#)” program, designed to help new faculty be more thoroughly acclimated to the institution. This **optional** program is a way to connect new faculty to different offices on campus through a series of monthly, interactive meetings. The Spring 2021 program welcomes faculty members in their 1<sup>st</sup>, 2<sup>nd</sup>, or 3<sup>rd</sup> years at Wake Forest. All meetings will be held via Zoom; a calendar invitation will be sent directly to our new faculty. If you have any questions about the program, please contact [Leigh Anne Robinson](#) or [Tony Marsh](#).

We hope you will join us in this opportunity to engage with student-facing campus resources.
