WELCOME TO THE WAKE FOREST SUMMER IMMERSION PROGRAM!

Over the summer, high school students are invited to Wake Forest University to take a deep-dive into a specific career-pathway or field-of-study with access to world-class faculty, researchers, and industry professionals. Our program is transformational as students think about their futures and prepare for college. Students' passions are ignited when they can see what it's really like to be a cardiologist, entrepreneur, defense attorney, or sports marketing executive, all while becoming leaders in their communities.

The Summer Immersion Program is comprised of non-credit academic institutes focused in specific areas. During the Summer of 2019, Wake Forest will be offering residential programs in Biosciences and Engineering, Business, Dance, Debate and Public Advocacy, Documentary Film, Health and Exercise Science, Health and Wellbeing, Law, Leadership, Medicine, Neuroscience, Policy and Politics, Psychology, Sports Medicine, Technology and Visual Arts on-campus in Winston-Salem. Our Uptown Charlotte campus will offer non-residential and residential programs in Entrepreneurship, Medicine, and Sports Business. These institutes combine an exploratory curriculum with organized field trips, guest lectures and hands-on activities allowing students to gain valuable academic insight and career experience.

Students, we invite you to participate in a life-changing, 1-week experience at Wake Forest University that will provide you exposure to a variety of career pathways and the opportunity to explore, discover and have a lot of fun while making friends from around the world.

I look forward to meeting you!

Sincerely,

KYLA HOLLINGSWORTH

Executive Director, Pre-College Programs
Wake Forest University

The Wake Forest Summer Immersion Program is a hands-on learning experience. Students dive deep into a field of study with access to world-class faculty, researchers, and industry professionals. The program is an unforgettable experience that allows rising sophomores, juniors, seniors and incoming college freshmen the opportunity to test-drive their career goals and get a glimpse of the future.

I had the opportunity to grow and reflect on my values and goals for the future while simultaneously being inspired by the curiosity emanating from my peers and the professionals I befriended. Not only could I probe my own interests, but I was able to gain confidence and flourish independently before embarking on my college transition.

LILY LONGWELL WFU Summer Immersion Program Alumnus

SUMMER IMMERSION PROGRAM SNAPSHOT

- WHO** Rising high school sophomores, juniors and seniors; incoming college freshmen
- WHAT** Week-long, not-for-credit, summer institutes that dive into a particular career pathway or field of study through hands-on learning and behind-the-scenes excursions.
- WHERE** Wake Forest University: Winston-Salem, NC or Wake Forest Charlotte Center: Charlotte, NC
- WHY** High school students can gain clarity and insight about a particular career pathway or field of study, meet like-minded students from around the world and have a week of fun on Wake Forest University's campus!

of SIP students agree this program is relevant to career plans

of SIP students plan to keep in touch with faculty, staff and professionals

of SIP students, if asked, would recommend the Summer Immersion Program

WHY THE SUMMER IMMERSION PROGRAM?

EXPERIENCE COLLEGE LIFE on Wake Forest University's beautiful campus.

Gain valuable knowledge and **INSIGHT FOR YOUR FUTURE.**

MEET STUDENTS from around the world.

Prepare for the **COLLEGE ADMISSIONS PROCESS.**

Explore state-of-the-art **RESEARCH FACILITIES AND CLASSROOMS.**

I certainly wouldn't be where I am today without the help of the Summer Immersion Program. It opened doors and established connections in ways that I couldn't have done alone. The opportunity is infinite and the benefits are endless.

THOMAS LAWS WFU Summer Immersion Program Alumnus

FRIENDS FROM AROUND THE WORLD

Over the years, we have welcomed **3,000+** students from **44 states and 17 countries**.

This was truly an experience of a lifetime! I attended the Sports Business Institute and learned so much from the amazing people who taught us. I loved getting to visit professional sites and learning about the “other side” of sports. I am so thankful for all of the friendships I made that will last a lifetime. This was by far the highlight of my summer, and I will never forget the memories I made!

LYDIA WFU Summer Immersion Program Alumnus

CAMPUS LIFE & COMMUNITY

The Summer Immersion Program is a great opportunity to experience life as a college student on Wake Forest University’s campus.

Students from around the world are welcome to join us at one of our **two locations** for an unforgettable summer experience. Our Winston-Salem campus offers the opportunity to live like a college student on Wake Forest University’s beautiful main campus, while our Charlotte campus allows students to get a feel for college life in an urban setting. Both offer the opportunity to live in a residence hall, dine in a cafeteria, as well as participate in a Wake Forest University admissions information session and campus tour.

EVENING ACTIVITIES

Each evening students participate in a variety of activities sponsored and led by our Summer Immersion Program Assistants.

Workshops

College Application Essay Writing
College 101
Greek Life
Wake Forest Presidential Scholarship
Study Abroad

Sports

Basketball
Volleyball
Track
Soccer
Kickball

Other

Karaoke Night
Game Night
Trivia Night
Spelling Bee

MENTORSHIP & CARE

During students' time on campus, they are supervised and mentored by a team of Wake Forest University staff members. Program Assistants (Wake Forest undergraduate students) act as counselors for students and provide mentoring and support during the week along with a team of professional staff members. The student to staff ratio during the Summer Immersion Program is 10:1.

of SIP students say they could see themselves as a part of the Wake Forest community

TWO CITIES. ONE UNFORGETTABLE SUMMER.

One of the scariest things to do as a high school student is to apply to college without having any idea about what field you want to pursue. The Summer Immersion Program helped narrow down my major decisions in college and the best part was that I was introduced to a dedicated Wake Forest community.

JORGE PENARANDA WFU Summer Immersion Program Alumnus

INSTITUTE OVERVIEW

Institutes are comprised of behind-the-scenes excursions, talks from guest presenters, labs and hands-on activities giving students insight and clarity about what they're interested in and want to pursue in the future. Institutes are led by Academic Leaders who are experienced professionals, faculty members and experts in their fields. The exploratory curriculum is developed with the goal of ensuring that students walk away with real-world experiences and a holistic idea of a specific career pathway or field of study.

ACADEMIC LEADER DEGREES

BIOSCIENCES & ENGINEERING

*Experimentation. Exploration. Innovation.
The building blocks of science – hands-on.*

LOCATION:

Winston-Salem - Residential

HIGHLIGHTS:

- Laboratory experiments in chemistry, biochemistry, and engineering
- Wake Forest Institute of Regenerative Medicine tour and simulations
- Regenerative Medicine
- Careers in Biosciences

Students will have the opportunity to work with esteemed faculty in the Wake Forest science departments, and industry professionals who have taken cutting-edge research and seen it materialize in the real world. Investigate the pathway from basic science research to tissue engineering, with hands-on workshops, experiments, and tours of cutting-edge facilities. Students explore how the fields of biosciences and engineering have evolved from the physical sciences to innovative research and how industry products and procedures are developed.

☞ I really enjoyed the Summer Immersion Program and was able to learn a lot about subjects not typically focused on in my school. It was really interesting to learn more about the different professions available in the biosciences and engineering fields, as well as to see the campus of Wake Forest (and Wake Downtown) and better understand the college experience.

BUSINESS

Swim with the sharks who know how to create and seize opportunity in ponds large and small.

LOCATION:

Winston-Salem - Residential

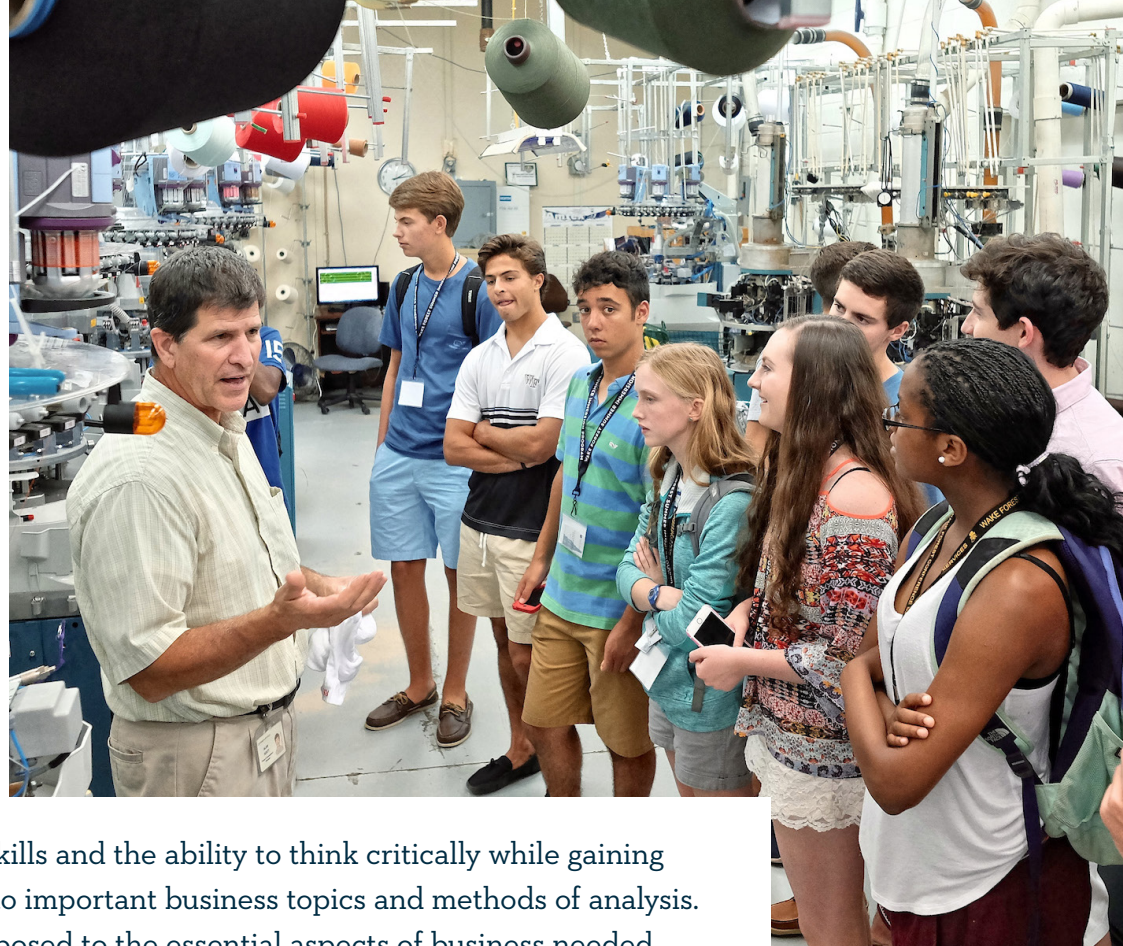

HIGHLIGHTS:

- Visit area companies and talk with executives
- Work with WFU business professors and business experts
- Improve team-building and project management skills
- Group presentation of a business case study

Develop practical skills and the ability to think critically while gaining valuable exposure to important business topics and methods of analysis. Students will be exposed to the essential aspects of business needed to launch and run a company: finance, human resources, management, marketing, and operations. In addition to working alongside experienced faculty and working in teams, the Business Institute ends with a 'Shark Tank' product presentation in which students pitch ideas to potential investors showcasing the knowledge they gained throughout the week.

I am ecstatic to have had the opportunity to learn more about the business profession. Through this program, I have been able to narrow my interests within the study of business, and I undoubtedly believe that knowledge will aid me in my search for a career.

DANCE

*The studio is your lab and the world is your stage.
Practice rigor, discipline, and focus through movement.*

The Dance Institute gives high school students a real glimpse into the Wake Forest Dance Program. The week-long program will give participants access to dance classes with Wake Forest faculty, where high school students will experience a sampling of some of the classes offered within the dance program at Wake Forest. This program is designed for dancers that have had significant training and are upper intermediate/ advanced level dancers in ballet, modern or jazz dance.

🗣️ I felt challenged in class, and I also felt like most teachers took into consideration different students' backgrounds. The composition class really helped me explore what pursuing dance in college would be like. The Program Assistants were absolutely amazing. They were very encouraging and made sure we had everything we needed.

LOCATION:

Winston-Salem - Residential

HIGHLIGHTS:

- Ballet
- Contemporary
- Jazz
- Strength, Conditioning, and Flexibility
- Connections between Dance and the Liberal Arts
- Compositional tools for Choreography
- Meetings with admissions counselors who can answer your questions about the Presidential Scholarship in Dance
- Meetings with current students in the Wake Forest Dance program

DEBATE & PUBLIC ADVOCACY

Speak up. Speak out. Build your confidence and skills; be your best advocate.

Spend one week this summer at Wake Forest building confidence speaking, arguing, and learning to passionately advocate. Students will engage in active, hands-on learning around topics they find interesting. A combination of speaking, videos, off-campus excursions, debating, guest speakers, researching, and plenty of time conversing provide students with the skills and experience to become better communicators. Whether in the classroom, the boardroom, or the halls of Congress, students will enjoy applying advocacy skills in whatever environment their future takes them.

🗣️ It was one of the best experiences in my life, for sure. I got the opportunity to learn not only as a debater, but also as a person, and I built very strong relationships with my classmates.

LOCATION:

Winston-Salem - Residential

HIGHLIGHTS:

- Exposure to guest speakers from business, politics, advertising and community organizations
- Practice speaking for self-empowerment
- Compete in debates on student-driven topics
- Fundamentals of Argument
- Rhetorical Tricks
- Finding Your Voice

DOCUMENTARY FILM

LOCATION:

Winston-Salem - Residential

HIGHLIGHTS:

- Fundamentals of Non-Fiction Storytelling
- Documentary Styles
- Work in a group to create a short documentary film
- Engage in discussion with local film professionals
- Watch innovative and exciting documentary films
- Interview Tips
- Video Editing
- Filmmaking Basics

Lights. Camera. Action. What's the story you want to tell?

Do you have an interest in video production or filmmaking? Do you love shooting photos on your phone or telling stories to your friends? If so, then the Documentary Film Institute is for you. The Documentary Film Institute is a week-long program designed for high school students to gain an understanding of documentary storytelling as well as some of the fundamentals of video production. Students will learn about various documentary forms, visit local museums and businesses to see how professional non-fiction storytelling is utilized, and create a short film to take with them at the end of the week.

🗣️ I grew more in my skills and confidence with my filmmaking skills. I also grew just within my ability to showcase my emotions and ideas through film. I will take away from this a new outlook on the world, people, and documentary film.

ENTREPRENEURSHIP

From innovation to execution, experience the start-up world first hand.

LOCATION:

Charlotte - Residential/Nonresidential

HIGHLIGHTS:

- Visit start-ups and meet the founders
- Hear from venture capitalists
- Tour business accelerators and incubators
- Create your own start-up
- Develop a business plan
- Participate in a hands-on start-up competition

Gain a 360 degree perspective on the start-up world while planning and launching your own business. Meet and engage with entrepreneurs and venture capitalists. Tour start-up companies at different stages of development. Learn key principles of innovation, identifying market opportunity, and financing new ventures. Put it all into practice by planning, pitching, and launching a start-up by the end of the week.

🗣️ The Entrepreneurship Institute participants will learn about starting a business from concept through going to market. They'll meet with successful entrepreneurs across a diverse array of industries, tour start-up companies, and accelerators, and put the concepts into practice by developing and launching their own small business over the course of the program.

HAL EASON Academic Leader

HEALTH & EXERCISE SCIENCE

Workout your future. Master the essentials of nutrition, exercise, and overall wellness.

LOCATION:

Winston-Salem - Residential

HIGHLIGHTS:

- Heart/lung anatomy lab
- Heart rate and blood pressure testing
- Body composition testing
- Pulmonary testing
- Muscle EMG
- Strength/fitness testing
- Cardio-respiratory testing
- Tour the Wake Forest University Fitness Center

Are you interested in health and how exercise can help you be healthier? Have you wondered how the body works and the testing practices used to identify and treat diseases? Gain hands-on experience in the health and exercise science field and insight into the many career opportunities available in the different disciplines of exercise science. Students will learn from Wake Forest faculty about the different systems in the body, practice using technology for health procedures like blood pressure and electromyography (EMG), and tour campus facilities dedicated to health and fitness.

I had an amazing experience during the Health and Exercise Science Institute. Labs like the VO₂ max test were very interesting and fun to experience with my peers. Getting to tour the sports medicine facility really opened my eyes to possible career options in the future, and solidified that I want to work with athletes once I graduate.

HEALTH & WELLBEING

Wellbeing is about much more than physical health. From nutrition and exercise to mindfulness and the quality of the air that you breathe, discover how health dictates all facets of life.

LOCATION:

Winston-Salem - Residential

HIGHLIGHTS:

- Fitness testing - including body composition, physical and muscular endurance
- Hear from a panel of dietitians and fitness experts
- Discover the role of environmental health in enhancing wellbeing
- Explore the mind/body connection through mindfulness, Tai Chi and meditation
- Tour Wake Forest's Wellbeing and Fitness Center

Are you interested in health and how to maximize the wellbeing of yourself and others? Are you curious about nutrition and diet, sleep science and exercise? Or maybe mindfulness, meditation, and the power your mind has on overall health? Gain hands-on experience and insight into the many career opportunities available in the different disciplines of health and wellness. Students will learn from Wake Forest faculty about the eight dimensions of wellbeing, use technology for health procedures, and tour campus facilities dedicated to health, fitness, and overall wellness.

Health is a multifaceted term that is interdependent upon many aspects of a person's life. With this interdependence, all areas of wellbeing affect each other to some degree; such that emotional wellbeing may impact healthy relationships, promote physical health, and support academic success. It is exciting to make the connections and recognize the role one can take in fostering personal health and wellbeing!

SHARON WOODARD Academic Leader

LAW

LOCATION:

Winston-Salem - Residential

HIGHLIGHTS:

- Access to industry-leading guest speakers
- 1L simulation class
- Analyze and investigate real criminal justice cases
- Experience a day in the life of a lawyer
- Learn from panel discussions with young lawyers
- Learn about the law school admissions process

Your permission to approach the bench is granted. Experience an insider's view of the legal industry and explore the pursuit of innocence and justice.

Find out what it's really like to be a lawyer. This is your chance to investigate a criminal justice case at Wake Forest School of Law's Innocence and Justice Clinic through the search for what happened. Learn to analyze evidence, make your argument, network with judges and attorneys and dive into the law industry to discover if this is the career path for you!

Participating in the Wake Forest Summer Immersion Program Law Institute gave me an amazing opportunity to gain knowledge and practical experience in a variety of ways. The Law Institute helped me decide which law pathway would best fit my strengths!

LEADERSHIP

Learn the skills and tools it takes to lead and inspire others.

LOCATION:

Winston-Salem - Residential

HIGHLIGHTS:

- Participate in team-building by challenging yourself and leading your peers
- Work with Wake Forest faculty to develop your personal leadership skills
- Visit with community leaders from corporations, government agencies, and nonprofit organizations to glean leadership lessons in practice
- Exposure to and application of motivation and leadership techniques

The Leadership Institute offers students an outlet for enhancing their ability to inspire and influence people in reaching a collective goal before they begin their collegiate careers. Personal growth, exploration, and reflection promote students who will be prepared to make a difference in their communities and create positive change in the world.

The Summer Immersion Program was the best experience of my entire life. I learned a lot during the week about myself (where I focus my attention, the way I take information, the way I make decisions, how I deal with the world, etc.), and how to use my own personality and interests to work with others and contribute to different groups. I am going to be able to use this new knowledge to improve my community and also throughout my life.

MEDICINE

Prepare to make a positive impact through medicine.

Interested in donning the white coat, but not sure what being a healthcare professional is really like? Gain hands-on experience into the medical field and insight into the many career opportunities available within the various disciplines of medicine. You'll visit healthcare facilities in Charlotte and Winston-Salem, participate in simulations and labs, and learn basic skills like taking blood pressure and suturing.

🗣️ The Wake Forest Summer Immersion Program Medicine Institute gave me the unforgettable experience of holding a human heart! And on top of that, I was able to dissect one with an actual cardiothoracic surgeon guiding me through the process. I had the opportunity to be fully immersed in different fields of medicine that I was unaware of prior to attending. From this memorable week, I have decided to pursue pre-medicine in college.

LOCATION:

Winston-Salem - Residential

Charlotte - Residential/Nonresidential

HIGHLIGHTS:

- On-site visits to healthcare facilities in Charlotte and Winston-Salem
- Tour the Wake Forest School of Medicine and participate in simulation labs
- Explore technology and the latest in medical advances within the hospital including the operating room and cardiac cath lab
- Practice taking blood pressure, listening to the heart, working in a suture lab, conducting an ultrasound, and dissecting a pig heart
- Experience minimally invasive surgery techniques

NEUROSCIENCE

From the molecular to the philosophical- explore how the brain develops, functions, and learns.

Neuroscience is an exciting and rapidly growing interdisciplinary field encompassing the study of the nervous system and its role in regulating behavior. Students will examine the structure of the brain through hands-on dissection, learn how sensory systems detect stimuli in the environment and how drugs affect the brain, visit active neuroscience labs and conduct exciting neuroscience experiments.

LOCATION:

Winston-Salem - Residential

HIGHLIGHTS:

- On-site visit to neuroscience labs at Wake Forest University
- Explore neuroanatomy by dissecting your own sheep brain
- Observe electrophysiological experiments
- Tour the neuroimaging facility at the Wake Forest University School of Medicine

This program was one of the most enlightening weeks of my life. I was able to expand my knowledge of neuroscience while exploring possible careers among prospective students who felt like me.

POLICY & POLITICS

Come learn how to use the power that is already yours, and help shape the laws and the policies that govern you, your community, state and nation!

LOCATION:

Winston-Salem - Residential

HIGHLIGHTS:

- Visit Forsyth County School System
- Speak with leaders of education, immigration, and other nonprofit organizations
- Federal District Court House tour
- Meetings with state legislators
- Visit county and city government offices
- Hear from prominent Wake Forest Alumni working in the fields of law and government

The Policy and Politics Institute offered in Winston-Salem, North Carolina is a week-long opportunity where students will learn about the democratic republic, their constitutional rights, and the powers that shape current laws. Students will learn about the efficacy of actually being empowered, which comes from the experience of doing politics effectively with others. Students will practice the art of thinking clearly, speaking persuasively, acting ethically, and working in collaboration with others.

My favorite moment during the Policy and Politics Institute is that shift in consciousness when students are talking together in groups about the meaning of political freedom and engaged citizenship, and they suddenly realize how they are the very subject we've been studying; that this government belongs to them and they become inspired to share in its power and to work with their neighbors to help the nation, in all its diversity, flourish.

MICHAEL PISAPIA Academic Leader

PSYCHOLOGY

Take a trip inside the mind. Discover why people think, act, and feel the way they do.

LOCATION:

Winston-Salem - Residential

HIGHLIGHTS:

- Make scientific observations of real-life behavior
- Sheep brain dissection
- Perform hands-on demonstrations of the senses
- Experience illusions and shifts in perception, and learn how these are processed by the brain
- Visit a marketing firm

Psychology is the study of the mind and behavior. Explore the structure of the brain through hands-on dissection and learn about how illusions, emotions, and biases affect how we see and interact with the world. Visit organizations that use psychology to influence behavior and conduct an observational study.

My overall experience was wonderful! I was grateful to have two professors who were passionate about what they taught. Each day offered something new and interesting. The staff were helpful and the “panels” were extremely informative. This program showed me the types of classes Wake Forest has to offer as well as what it would be like to live on campus.

SPORTS BUSINESS

This is the best seat in the house for an in-depth view of one of the fastest growing industries worldwide.

LOCATION:

Charlotte - Residential/Nonresidential

HIGHLIGHTS:

- Visit professional sports arenas, complexes and facilities
- Speak with Division 1 NCAA coaches and athletic directors from Wake Forest University
- Engage in discussions with industry experts from IMG College, the nation's leading collegiate sports marketing company
- Create a sports marketing plan for a company to invest in sponsorship and advertising for a professional sports team
- Learn from NASCAR insiders about the world of motorsports

What happens in the game, the front office and behind the camera fuels a \$250 billion a year industry that represents one of the fastest growing career fields worldwide. This institute explores the many professional options available in the global sports industry.

I enjoyed the eclectic diversity of the panel discussions and guest speakers. Mr. Stack [Academic Leader] was excellent in tying all of the industries in the sports world together and gave advice and guidance for a future career in the sports industry. I had so much fun and would recommend it to any high school student who is interested not only in sports but in any sector of business. What I learned this week can be used in all areas of life.

SPORTS MEDICINE

Discover what it takes to keep top athletes on the field and performing at their very best.

The Sports Medicine Institute will expose students to innovative methods of medical care for the nation's most elite athletes as well as the career options available. The program will provide hands-on experiences ranging from the very building blocks of sports medicine to the integration of advanced techniques to injury prevention, rehabilitation, and athletic performance. Students will learn from the esteemed expert, Dr. Gary Poehling as well as countless experienced orthopedic medical professionals, trainers, coaches and athletes themselves. This institute allows students who have both a passion for medicine and sports the ability to experience the field of Sports Medicine first hand.

 I really enjoyed the Summer Immersion Program. I learned a lot about sports medicine and feel strongly about pursuing the medical field now. I loved staying at Wake Forest and met so many new friends who have similar interests and motivations.

LOCATION:

Winston-Salem - Residential

HIGHLIGHTS:

- Tour Stratford Sports Medicine – an experienced team of orthopaedic surgeons and physical therapists
- Visit Wake Forest Athletics training room and physical therapy
- Practice injury prevention techniques
- Perform rehabilitation skills
- Taping labs

Pursue your digital dreams from the intersection of inspiration and innovation.

In today's fast-paced digital, connected world, technology has invaded almost every aspect of everyone's lives. Students will learn how big data is leveraged to shape buying habits, and consider the security ramifications and implications that the new connected world presents. Students will immerse themselves into the world of Virtual Reality and gain an understanding of how a \$35.00 computer is enabling the next wave of innovators and entrepreneurs. Students will get hands-on experience with hardware and software and find out what its like to work as a programmer. This program will explore technology from the inside out.

🗣️ This program immersed me in the field of technology and renewed my interest in coding. I feel like I got a taste of college life and got to experience the Computer Science department at Wake Forest.

LOCATION:

Winston-Salem - Residential

HIGHLIGHTS:

- Build your own computer from the inside out
- Raspberry Pi
- Tour the Innovation Quarter
- Explore an Indy race car
- Arduino Lab

VISUAL ARTS

Draw. Collage. Paint. Sculpt. Explore your boundless creativity.

Visual acuity and technical skills will be strengthened to determine creative preference and how to turn interest into an artistic line of inquiry. Drawing, collage, painting, and sculpture may be considered as potential media. Field trips, working sessions, and critiques will all be part of the process.

🗨️ I learned about the importance of being creative and how to weave it into my everyday life. I also feel that the Visual Arts Institute furthered my skills as an artist and gave me an intimate look at what an art major is like at a liberal arts university.

LOCATION:

Winston-Salem - Residential

HIGHLIGHTS:

- Practice visual measuring and proportion techniques
- Select appropriate techniques and materials
- Work with conceptual and collage artists
- Visit local museums and speak with a curator
- Visit a professional artist's studio
- Participate in critique
