STEP 1. Receive Your Test Kit

Once you have received your kit, initiate the following steps:

1. Inspect your test kit to ensure all components are included: collection tube with funnel, cap, biohazard bag with absorbent sheet, original shipping box with attached prepaid return shipping label on back of box.

2. Register this test kit ID Barcode to link your specimen with your order and test results. Go to [www.register.azova.com](http://www.register.azova.com) to complete registration.

3. You must complete the label on the Biohazard bag by writing in your Name, Phone, Date of Birth and Today’s Date.

IMPORTANT: Read complete instructions prior to providing a saliva specimen.

STEP 2. Self-collection Kit Instructions for Patients

You may complete your specimen collection on your own, or under supervision, such as with your physician or pharmacist:

1. **IMPORTANT:** Wash your hands thoroughly for 20 seconds then dry your hands before starting the collection.

2. Open your kit and place all the contents on a clean, dry surface.

3. Remove the saliva collection device from its packaging and collect your specimen:

   1. Spit until the amount of saliva (not bubbles) reaches the Fill Line.
   2. Close lid tightly by pushing down hard on the funnel lid until you hear a Click sound. The preserving fluid will be added to the collection tube.
   3. Unscrew the funnel from the tube. **THIS IS VERY IMPORTANT.**
4. Use the small Cap to close tube tightly.

5. Shake the capped tube for 5 seconds.

6. Place specimen into the biohazard bag.
   Remove adhesive strip, fold over to seal bag.
   **CONFIRM** you have completed the label with your personal info.

7. **Discard** the funnel!

---

**STEP 3. Return Shipping**

1. Place the biohazard bag into the original shipping box with the prepaid return shipping label attached to it and seal the box flap by peeling the adhesive strip. **IMPORTANT:** Wash your hands thoroughly for 20 seconds again, then dry your hands before placing the biohazard bag into the return shipper.

2. Deliver the sealed, prepaid, pre-addressed shipping box to the appropriate carrier’s drop box or location. **IMPORTANT:** Your sample must be shipped within 24 hours of collection. Do not deliver sample to a drop box on the weekend.

3. **IMPORTANT:** Wash your hands thoroughly for 20 seconds again, then dry your hands.
3. The box you will use to send the test back to the lab.
