Symptomatic students should contact Student Health for an assessment as soon as possible (336-758-5218 or apptshs@wfu.edu)

---

Student tests positive for SARS-CoV-2. Notify BestHealth (wfuwellness@wakehealth.edu or 743-223-4217). If student tests positive at Student Health, we will notify BestHealth for the student.

---

DID THE STUDENT EVER DEVELOP SYMPTOMS?

- YES
  - Isolate for 5 days after symptom onset
  - Continue wearing a tight fitting mask in all circumstances until 10 days have passed since symptom onset.
- NO
  - Isolate for 5 days after the positive test (the positive test date is day 0). Continue wearing a tight fitting mask in all circumstances until 10 days have passed since the positive test.

---

ARE THE SYMPTOMS IMPROVING AND HAS THERE BEEN NO FEVER (WITHOUT MEDICATION) FOR 24 HOURS?

- YES
  - Take a rapid antigen test
- NO
  - Continue to isolate until symptoms are improving and there has been no fever (without medication) for 24 hours

---

DOES THE STUDENT HAVE SYMPTOMS ON DAY 5?

- NO
  - Continue to isolate until symptoms are improving and there has been no fever (without medication) for 24 hours
- YES
  - Take a rapid antigen test

---

WAS THE TEST POSITIVE?

- NO
  - Remain in isolation until the first of the following occurs:
    - symptoms resolve completely
    - 15 days has elapsed since the start of their symptoms
    - or repeat the antigen test 2-3 days later and it's negative
- YES
  - Student leaves isolation. Continue wearing a tight fitting mask in all circumstances until 10 days have passed since symptom onset.
