THE
CANVAS CORNER

Copy Content: Copy Course

Summary: The Copy Course page has been updated to the latest version of InstUI, Instructure's internal design language. When a term is selected, the dates default to the term's dates. Instructors must contact their admin to update the term dates. If an instructor's time zone differs from the course timezone, both the local and course time zones are displayed.

Change Benefit: This update enhances user experience by providing a modern, consistent interface through the latest version of InstUI. Displaying local and course time zones improves scheduling accuracy for users working across different time zones.

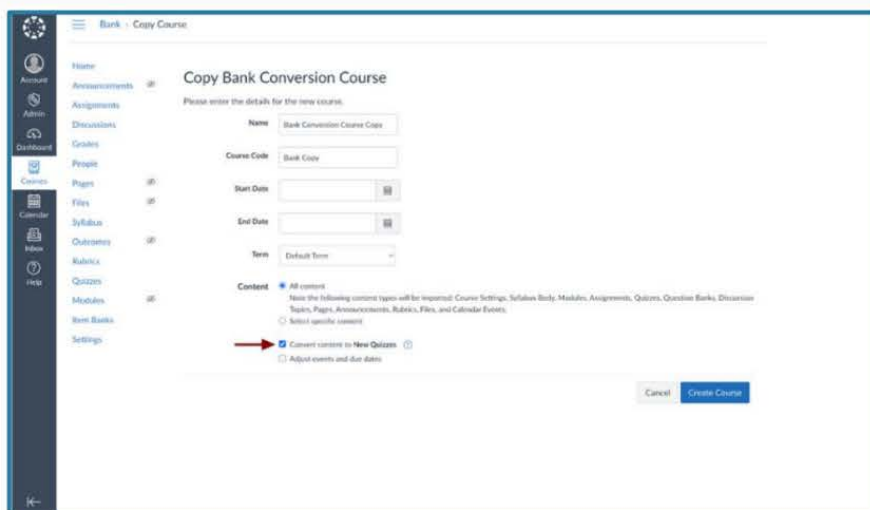

Canvas For All

Want to make your Canvas page more accessible? Here is a great resource that will assist you with that. Click Here

New Quizzes: Question Bank Migration on Course Copy

Summary: Instructors can migrate Classic Quiz question banks to New Quiz items banks by using the Convert content to New Quizzes checkbox, previously labeled Import existing quizzes on the Course Copy and Import Course Content pages. Additionally, the Tooltip text is updated.

Change Benefit: This update allows Instructors to transfer question content from Classic Quizzes to New Quizzes without using quiz migration, greatly improving efficiency and saving valuable time.

Canvas Storage Running Low? ⚠

Start the year organized!
Free up space and maximize your Canvas storage with these tips:

- Remember: Canvas isn't your primary storage. Use Google Drive for all your files.
- Link your Google Drive to Canvas. This keeps Canvas light and prevents "Storage Low" messages.

Click here to learn how to link Google Drive to Canvas.
