DISTINGUISHED GUEST

Dr. Timothy M. Persons was appointed the Chief Scientist of the United States Government Accountability Office (GAO - the investigative arm of the U.S. Congress) in July of 2008. In this role he is an expert advisor and chief consultant to the GAO, Congress, and other federal agencies and government programs on cutting-edge science and technology (S&T), key highly-specialized national and international systems, engineering policies, best practices, and original research studies in the fields of engineering, computer, and the physical and biological sciences to ensure efficient, effective, and economical use of science and technology in government programs. The Chief Scientist also works with GAO's Chief Technologist to lead the production of Technology Assessments for the U.S. Congress.

Prior to joining GAO, Dr. Persons was the Technical Director of the Intelligence Advanced Research Projects Activity (IARPA) from November 2002 to July 2008. IARPA's mission is to invest in high-risk/high-payoff research with potential to revolutionize the business of intelligence collection, processing, analysis, and dissemination. From July 2001 to November of 2002, he served as the Technical Director for the National Security Agency's (NSA) Human Interface Security Group which researches, designs, and tests next-generation biometric identification and authentication systems. He has also served as a radiation physicist with the University of North Carolina at Chapel Hill.

Dr. Persons is a 2007 Director of National Intelligence S&T Fellow whose research focuses on computational imaging systems. He was also selected as the James Madison University (JMU) Physics Alumnus of 2007. He received his B.Sc. (Physics) from JMU, a M.Sc. (Nuclear Physics) from Emory University, and a M.Sc. (Computer Science) and Ph.D. (Biomedical Engineering) degrees from Wake Forest University. He is a senior member of the Institute for Electrical and Electronic Engineers, Association for Computing Machinery, and the Sigma Xi research honor society and has authored an array of journal, conference, and technical articles. He is also a Ruling Elder in the Presbyterian Church in America and lives happily in Maryland with his wife Gena and their two children.

GRADUATE STUDENT ASSOCIATION FACULTY EXCELLENCE AWARD

This award is presented to the faculty member whom the Graduate Student Association has selected as having done the most to promote excellence in graduate education this past year.

GORDON A. MELSON OUTSTANDING DOCTORAL STUDENT AWARD

This student has been identified as being outstanding in research, productivity and quality. Although the award is for excellence in the student's research program in general, special emphasis in selecting the recipient is given to the dissertation in terms of originality, importance, and potential influence on the student's field. Other factors which are considered in conferring this award are academic record, activity in the discipline, as well as university and departmental citizenship. The award's monetary prize is made possible through gifts from alumni and friends to the Gordon A. Melson Outstanding Doctoral Student Award Fund of the Graduate School of Arts and Sciences.

GORDON A. MELSON OUTSTANDING MASTER'S STUDENT AWARD

This student has been identified as being outstanding in terms of academic record, activity in the discipline, as well as university and departmental citizenship. Furthermore, the student's research productivity and quality have been deemed exceptional. The award's monetary prize is made possible through gifts from alumni and friends to the Gordon A. Melson Outstanding Master's Student Award Fund of the Graduate School of Arts and Sciences.
