DISTINGUISHED GUEST

Andrew C. von Eschenbach, M.D., was appointed Acting Commissioner of Food and Drugs in September 2005, where he immediately engaged an agenda to modernize the FDA. Under his leadership, many new programs have been designed to strengthen the FDA in its mission to protect and promote public health. He has emphasized FDA's role in working with external partners to assure quality throughout the entire life cycle of the products it regulates while internally fostering, through process improvements, a regulatory pathway that is transparent and efficient while still rigorous and science led. Confirmed by the Senate as Commissioner in December 2006, Dr. von Eschenbach emphasizes innovation by fostering creative projects, including FDA's Critical Path Initiative (designed to bring modern tools of science to the product development process); work plans like the FDA's Food Protection Plan; and most especially the nurturing of the workforce through initiatives, such as an Agency-wide fellowship program and development of a new integrated campus for the Agency in White Oak, Maryland.

Dr. von Eschenbach joined FDA after serving for four years as Director of the National Cancer Institute (NCI) at the National Institutes of Health where he set an ambitious goal to eliminate the suffering and death due to cancer by rapid acceleration and integration of the discovery-development-delivery continuum. While at NCI, he committed resources to ensure the application to oncology of nanotechnology, genomics, proteomics, bioinformatics, and other emerging technologies. At the time of his appointment by President Bush to serve as Director of NCI, he was President-Elect of the American Cancer Society. Dr. von Eschenbach entered government service after an outstanding career over three decades as a physician, surgeon, oncologist and executive that included numerous leadership roles from Chairman of the Department of Urologic Oncology to Executive Vice President and Chief Academic at the University of Texas M.D. Anderson Cancer Center in Houston, an institution world renowned for the magnitude and excellence of its clinical and research cancer programs. An internationally renowned cancer specialist and author of more than 200 scientific articles and studies, Dr. von Eschenbach has served in numerous leadership roles, including serving as one of the founding members of the National Dialogue on Cancer. He has received numerous professional awards and honors. In 2006, Dr. von Eschenbach was named one of Time magazine's "100 most influential people to shape the world," and in both 2007 and 2008, he was selected as one of the Modern Healthcare/Modern Physician's "50 Most Powerful Physician Executives in Healthcare."

Dr. von Eschenbach earned a B.S. from St. Joseph's University in his native Philadelphia and his medical degree from Georgetown University School of Medicine in Washington, D.C. He served as a Lt. Commander in the U.S. Navy Medical Corps. After completing a residency in urologic surgery at Pennsylvania Hospital in Philadelphia, he was an instructor in urology at the University of Pennsylvania School of Medicine. He completed a Fellowship in Urologic Oncology at the University of Texas M.D. Anderson Cancer Center.

He has been married to his childhood sweetheart, Madelyn, for over 40 years, and they are proud parents of four children and elated grandparents of six.

GRADUATE STUDENT ASSOCIATION FACULTY EXCELLENCE AWARD

This award is presented to the faculty member whom the Graduate Student Association has selected as having done the most to promote excellence in graduate education this past year.

GORDON A. MELSON OUTSTANDING DOCTORAL STUDENT AWARD

This student has been identified as being outstanding in research, productivity and quality. Although the award is for excellence in the student's research program in general, special emphasis in selecting the recipient is given to the dissertation in terms of originality, importance, and potential influence on the student's field. Other factors which are considered in conferring this award are academic record, activity in the discipline, as well as university and departmental citizenship. The award's monetary prize is made possible through gifts from alumni and friends to the Gordon A. Melson Outstanding Doctoral Student Award Fund of the Graduate School of Arts and Sciences.

GORDON A. MELSON OUTSTANDING MASTER'S STUDENT AWARD

This student has been identified as being outstanding in terms of academic record, activity in the discipline, as well as university and departmental citizenship. Furthermore, the student's research productivity and quality have been deemed exceptional. The award's monetary prize is made possible through gifts from alumni and friends to the Gordon A. Melson Outstanding Master's Student Award Fund of the Graduate School of Arts and Sciences.
