Ph.D. 1998 Wake Forest University Graduate School of Arts and Sciences

Biography

Felicia Goodrum earned her Ph.D. from the Wake Forest University Graduate School of Arts and Sciences studying cell cycle restrictions to adenovirus replication. Her faculty mentor was Dr. David A. Ornelles, Department of Microbiology/Immunology, Wake Forest School of Medicine. She trained as a postdoctoral fellow from 1998 until 1999 in the Microbiology/Immunology Department of Wake Forest School of Medicine, and at Princeton University in the laboratory of Dr. Thomas Shenk studying human cytomegalovirus latency from 1999 until 2006. She joined the faculty at the University of Arizona in 2006.

Research Overview

Our research focuses on the complex host-virus interactions that result in viral persistence. Progress in understanding latent programs of persistence have been impeded by the inherent complexity of the viruses and that paucity of adequate model systems. Herpesviruses are extraordinary for their ability to coexist with their host by establishing life-long latent infections. Latency is defined as a reversibly quiescent state during which viral gene expression and replication is highly restricted. Our laboratory studies cytomegalovirus or CMV, one of eight human herpesviruses.

GRADUATE STUDENT ASSOCIATION FACULTY EXCELLENCE AWARD

This award is presented to the faculty member whom the Graduate Student Association has selected as having done the most to promote excellence in graduate education this past year.

GORDON A. MELSON OUTSTANDING DOCTORAL STUDENT AWARD

This student has been identified as being outstanding in research, productivity and quality. Although the award is for excellence in the student's research program in general, special emphasis in selecting the recipient is given to the dissertation in terms of originality, importance, and potential influence on the student's field. Other factors which are considered in conferring this award are academic record, activity in the discipline, as well as university and departmental citizenship. The award's monetary prize is made possible through gifts from alumni and friends to the Gordon A. Melson Outstanding Doctoral Student Award Fund of the Graduate School of Arts and Sciences.

GORDON A. MELSON OUTSTANDING MASTER'S STUDENT AWARD

This student has been identified as being outstanding in terms of academic record, activity in the discipline, as well as university and departmental citizenship. Furthermore, the student's research productivity and quality have been deemed exceptional. The award's monetary prize is made possible through gifts from alumni and friends to the Gordon A. Melson Outstanding Master's Student Award Fund of the Graduate School of Arts and Sciences.
